Smart Textiles Masterclass
Final Conference, Milan-Malpensa

This unique networking and co-creation event will bring together 100 leading industry innovators and tech developers from all over Europe. It concludes the 15-month learning journey of the European Masterclass in Smart Textiles Innovation organised by the Textile ETP. The event will feature keynote speeches from Smart Textiles Innovation Leaders, co-creation sessions around 3 concrete Smart Textiles market challenges and extensive networking, and a small-scale exhibition. It will be launchpad for the permanent Smart Textiles Innovation Community that will open for subscriptions in July 2022. A few places are available for non-Masterclass subscribers on a first come, first serve basis. Ensure your spot quickly.
